# AUTONOMUS POOL CLEANER ROPOOL

## RoPool

**The autonomus cleaner for spas and small swimming pools**

Taking into consideration the time consumed in cleaning an inflatable spa or a swimming pool, Netspa creates the new self-standing, autonomus pool cleaner.

Its 360° propulsion technology works just as well in a spa than in an above-ground swimming pool.

Equipped with two large suction openings and soft brushes, RoPool cleans through the dirtiest of pool bottoms.

Its floating handle and its simplified cleaning system make it an equipment extremely easy to use on a daily basis.

**Double suction plate**  
With brushes

**Easy to clean**  
With its filtering bag

**360° propulsion**  
For perfect cleaning

**Floating handle**  
For easy pool retrieval

**60 min autonomy**  
Ideal for swimming pools  
up to 50m<sup>2</sup>

Technical Data	
Reference	SP-NBOT738
Autonomy	60 min
Battery	Lithium 7.4V 4000mAh
Motor power	27W
Charging time	4-5h
Bag volume	1.8L
Speed	15-16m/min
Filter density	160-190µm
Weight	3.4kg
Use temperature	from 4°C to 35°C
Max depth	3m
Dimensions	
IP index	IPX8
Certifications	CE - RoHS
